

III Remarks

In the Action, the Examiner objected to Applicant's Preliminary Amendment received by the Patent Office January 28, 2004, and filed January 25, 2004, because the Amendment did not include a full listing of the claims. Applicant's presentation herein of a full listing of the claims of the application consistent with Applicant's Amendment of January 25, 2004, with the appropriate status-identifier of each claim provided parenthetically is believed to comply with the Legal Instruments Examiner's instruction and with 37 CFR 1.121. As there are no claim amendments being made in this Response or in Applicant's Amendment filed January 25, 2004, there are no marked up claims.

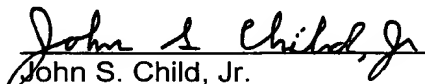

Applicant notes that claim 65 contains a formal error as to the identification of the claim upon which claim 65 is dependent. Applicant would agree to a correction of this error by an Examiner's amendment.

IV Conclusion

It is believed that the above Amendment and Remarks constitute a complete Response under 37 C.F.R. § 1.111 and that all grounds for objection stated in the **Notice of Non-Compliant Amendment (37 CFR 1.121)** have been brought into compliance through Applicant's presentation of a complete listing of all claims in the application with the status-identifier for each claim. A Notice of Allowance in the next Examiner's Action is therefore requested. The Examiner is requested to telephone the undersigned counsel if any matter that can be expected to be resolved in a telephone interview is believed to impede the allowance of the pending claims of Application Serial No. 09/743,883.
